## Self Help Point

Touch Screen Information

#### **IDEA FOR SELF HELP FREESTANDING FACILITY**

A Final idea sketch for a central standing self help point with four (or more) individually working computer/television screens.

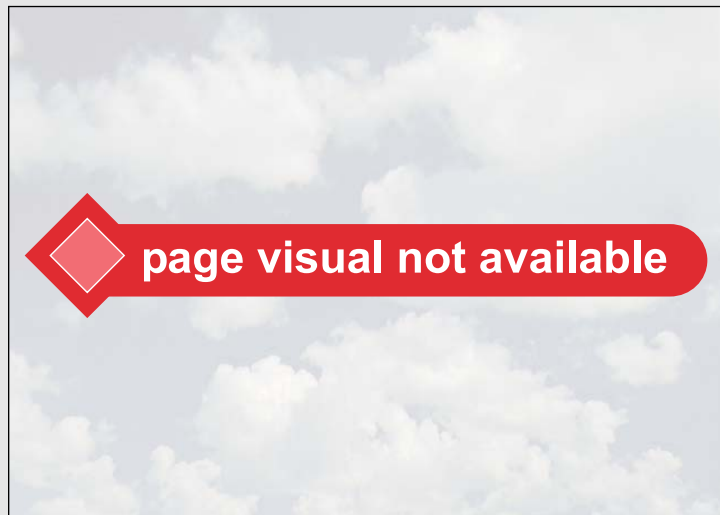

The large 'i' for information is encircled in a form which aims to portray an international facility for public use

The screens themselves tilt for ease of viewing

A printout outlet is located below the screen (similar to the application of a bank cashpoint machine)

#### **LANGUAGE ICON**

...to be used on the language screens

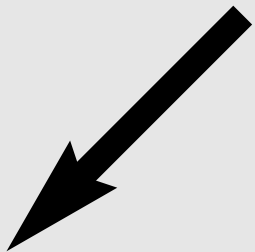

In the following number of pages a choice of paths may be taken to show the versatility of the screen information

**ARRIVALS**

**DEPARTURES**

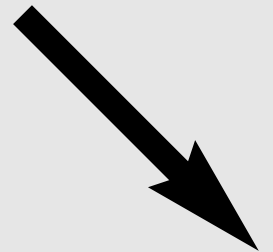

**AIRPORT INFORMATION**

In the following number of pages a choice of paths may be taken to show the versatility of the screen information

**GERMAN LANGUAGE OPTION**

**DANISH LANGUAGE OPTION**

## 8 Continent Horizontal Screen Scroll WORLD LANGUAGE MAP

Slow horizontal scrolling map of the world with flashing coloured touch buttons indicating which **area of the world** a **language translation** is required from. This would be emphasized by the presence of the **language icon** on screen

In this example: **Africa is chosen**

## 8 Continent Horizontal Screen Scroll WORLD LANGUAGE MAP

Slow horizontal scrolling map of the world with flashing coloured touch buttons indicating which **area of the world** a **language translation** is required from. This would be emphasized by the presence of the **language icon** on screen

In this example: **Europe is chosen**

Touch Screen Information

Chosen Continent (scrolling vertically)

After choosing an enlarged map of Africa, **sectioned geographically**, appears with flashing coloured touch buttons.

In this Example: **Southern Africa is chosen**

Touch Screen Information

Chosen Continent (scrolling vertically)

After choosing an enlarged map of Europe, **sectioned geographically**, appears with flashing coloured touch buttons.

In this Example: **Western Europe is chosen**

### Touch Screen Information

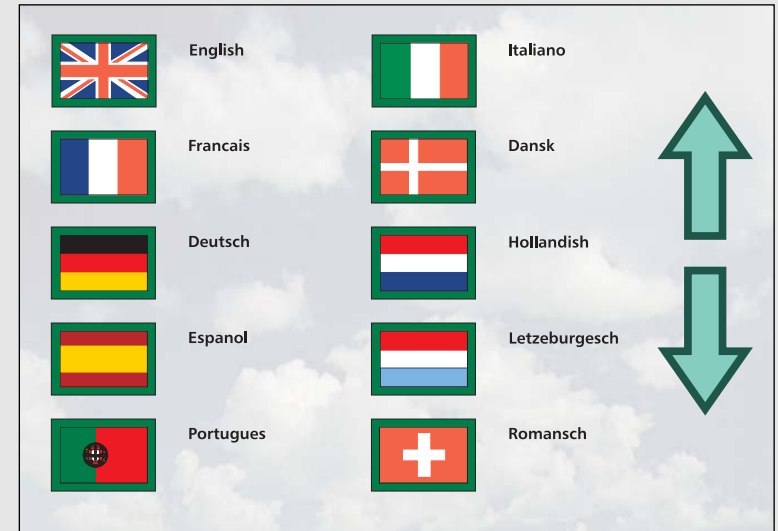

### Language Flags

**Language flags** appear on the screen with their respective languages and one is chosen using the **touch screen**.

Note: The text adjacent to each different flag is projected in the native language(s)

In this example: Zimbabwe is chosen

### Touch Screen Information

### Language Flags

**Language flags** appear on the screen with their respective languages and one is chosen using the **touch screen**.

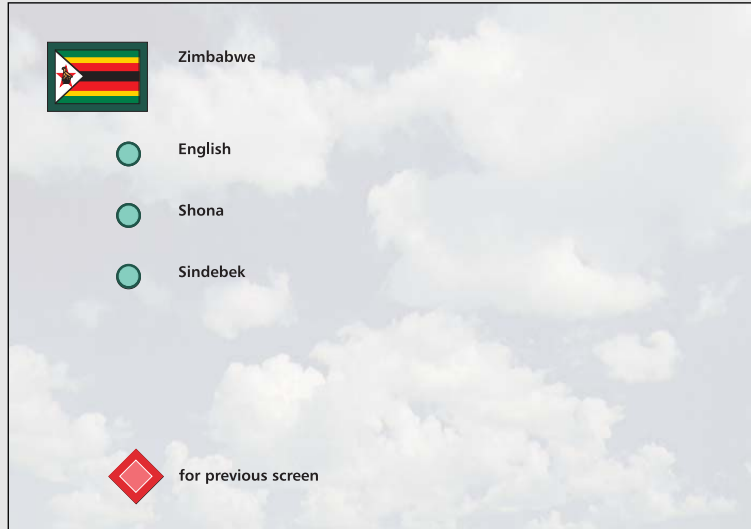

Note: The text adjacent to each different flag is projected in the native language(s)

In this example: the choice is made from either the **German language path** or the **Danish language path**

GERMAN PATH

DANISH PATH

### Touch Screen Information

### Extra Language Screen

If more than one main language is spoken in the chosen country the flag reappears with the choices of language

## Touch Screen Information

## WELCOME SCREEN

The **Welcome Screen** now appears in the desired language

At this point a destination path must be chosen:

Flight Details - ARRIVALS

Flight Details - DEPARTURES

AIRPORT INFORMATION

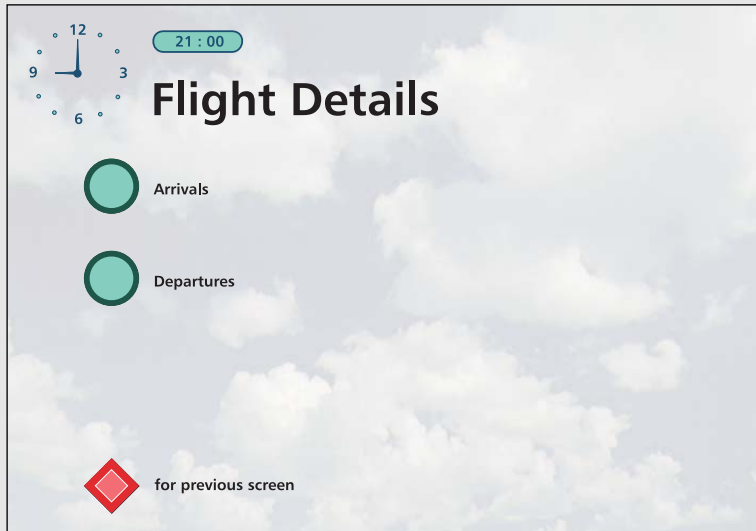

## Touch Screen Information

Arrivals (International or Domestic)

## Touch Screen Information

Airport Information Menu

An area is chosen of which more information is required by touching the screen

## Touch Screen Information

## Time Search for Arrivals

The **search all** option allows the full search of all flights throughout a single day

This screen is regularly updated

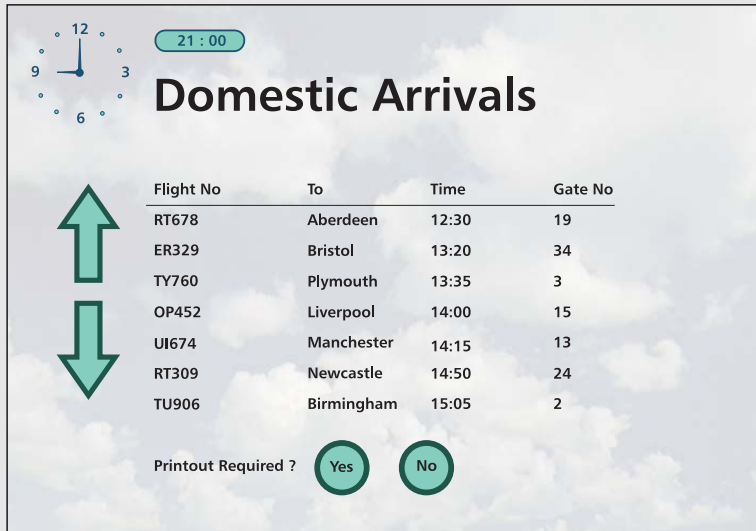

## Touch Screen Information

## View selection

The given screen area shows fading images between a **Plan View** and a **3D view**

## Touch Screen Information

The screenshot shows a touch screen interface for 'Domestic Arrivals'. At the top left is a clock showing 12:00. To its right is a green pill-shaped button with the text '21:00'. The title 'Domestic Arrivals' is prominently displayed. Below the title is a table of flight arrivals. To the left of the table are two large green arrows, one pointing up and one pointing down, indicating scroll functionality. At the bottom, there is a 'Printout Required?' section with two circular buttons labeled 'Yes' and 'No'.

Flight No	To	Time	Gate No
RT678	Aberdeen	12:30	19
ER329	Bristol	13:20	34
TY760	Plymouth	13:35	3
OP452	Liverpool	14:00	15
UI674	Manchester	14:15	13
RT309	Newcastle	14:50	24
TU906	Birmingham	15:05	2

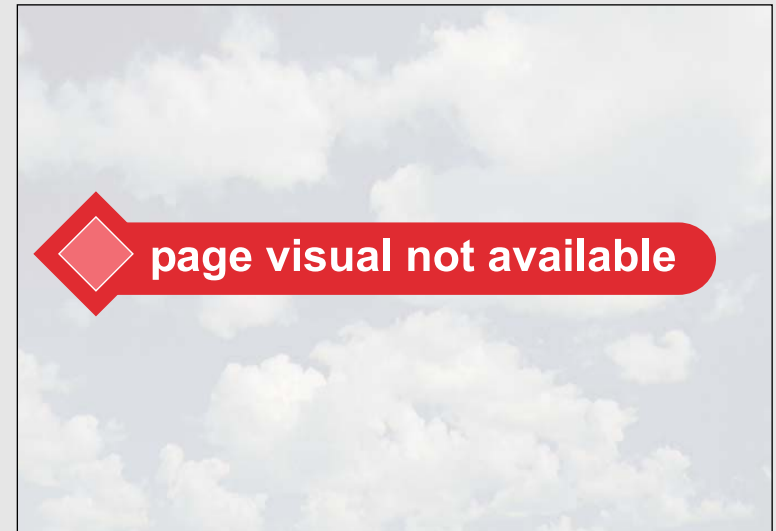

## The List of flight arrivals

If a **broader search** is required the arrows may be used for scrolling

Returns to welcome screen after customer printout request response

STOP

## Touch Screen Information

The screenshot shows a touch screen interface with a background of white clouds. A large red banner with a white diamond-shaped arrow pointing left is overlaid on the screen. The text 'page visual not available' is written in white on the red banner.

## View selection and information projection

Projects the **required area** of information in relation to the individual

Returns to Welcome Screen after printout request response

STOP
